

MILANO

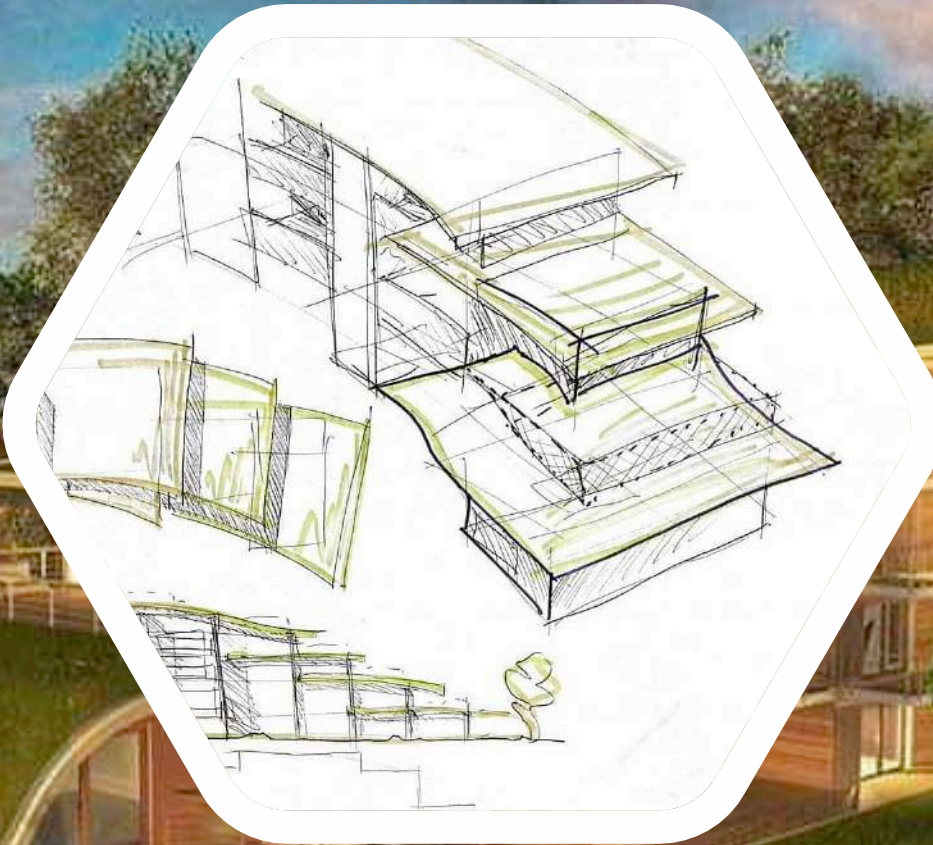

Passionate About Development

CMILANO oversees the development and redevelopment of properties in the metropolitan area of Milan. We plan and control projects from inception to completion, starting with the acquisition of the land, to designing and constructing the property. Our areas of expertise include residential real estate as well as commercial real estate like retail, hospitality, office space, travel and leisure.

MILANO

- We oversee projects from start to finish, make major decisions, and recruit and manage professionals to execute project plans.

■ For the past 20 years we've built an integrated real estate company with expertise in planning, development, construction, investment and management.
